

Important Points

- The Claim History Wizard allows anyone to request claim histories for physicians and employees currently or formerly insured by CRICO.
- There is a \$25 administrative fee for processing claim histories for any individual that is no longer insured by CRICO.
- For all third party requests we require a release form that has been signed/dated within the last 6 months by the practitioner. If you do not have a release form, there is a downloadable template on the claim history request page that we will accept.
