

Important Points

- The Claim History Wizard allows current or previously insured individuals and non-CRICO organizations to request claims histories from CRICO directly.
- If you are a current physician insured by CRICO, you can also request the copy of your claims history by logging into My CRICO which can be accessed from the CRICO homepage.
- If you are a current or past employee or a previously insured physician, you will need to request this documentation through this portal.
- Please Note: there is a \$25 administrative fee is applicable for requesting claim histories on behalf of individuals who are no longer insured by CRICO. The charge applies to individuals who are no longer in the CRICO program.
- However, if this request is initiated by a CRICO institution or existing insured clinician, this fee does not apply. We will waive the \$25 fee for former CRICO-insured clinicians who are returning to the CRICO program. Please indicate “Prior CRICO-insured returning to the program” in the Note to CRICO Underwriting field on the final page of the request form.
