

Shifting Patient Safety into High Gear

NOVEMBER 16, 2012

FACULTY

Steve Atlas, MD, is Director of the Primary Care Practice-based Research & Quality Improvement Network at Massachusetts General Hospital, an Associate Physician in the General Medicine Division at MGH, and an Associate Professor of Medicine at Harvard Medical School. He is also a medical editor at the not-for-profit Foundation for Informed Medical Decision Making.

Anne Bane, MS, RN, is Nursing Director for Clinical Systems Innovations at Brigham and Women's Hospital, leading nursing and multidisciplinary teams in developing, testing, and advancing clinical systems innovation. She leads a program that is accountable to ensure the success of staff nurses in learning, adopting and evaluating new technology initiatives. Ms. Bane also leads committees on drug safety and is an advisor to the BWH Nursing Informatics and Clinical Innovations Committee.

Peter Bernstein, MD, is a Professor of Clinical Obstetrics & Gynecology and Women's Health at the Albert Einstein College of Medicine. He now serves as the Director of Perinatal Network Development and Quality for the Department of Obstetrics & Gynecology and Women's Health at Montefiore Medical Center.

William (Bill) Berry, MD, FACS, is the surgical consultant and an associate medical director for CRICO, where he reviews malpractice claims in surgery and works to improve patient safety in the Harvard medical institutions. Board certified in Cardiothoracic Surgery, General Surgery, and Surgical Critical Care, Dr. Berry holds an appointment as a research associate at the Harvard School of Public Health. He is the Chief Scientific Officer for the Joint Center for Health Systems Innovation at the Brigham and Women's Hospital and Harvard School of Public Health. Dr. Berry is a faculty member of the Institute for Healthcare Improvement and also serves on the Workforce on Patient Safety for the Society of Thoracic Surgeons.

Susan (Sue) Cornacchio, RN, JD, is CRICO's Director of Patient Safety, responsible for oversight, planning and development of CRICO patient safety initiatives. She oversees the Office Practice Evaluation Program that surveys outpatient practices to identify risks and develop strategies to improve patient safety. Current CRICO initiatives include a three-year grant funded program to bridge hospital based risk and safety programs to their outpatient provider networks, and Ms. Cornacchio leads the Ambulatory Risk Management/Patient Safety Leaders Group that has been convened to support this project. Ms. Cornacchio has more than 15 years of experience as a critical care nurse and obtained her law degree from Suffolk University Law School. She is a current member of ASHRM and is a past president of the Massachusetts Society for Healthcare Risk Management.

Andy Ellner, MD, MSc, is Co-Director of the Center for Primary Care, and Director of the Program in Global Primary Care and Social Change, at Harvard Medical School. He is also an Associate Physician in the Division of Global Health Equity at Brigham and Women's Hospital and Assistant Medical Director of the Phyllis Jen Center for Primary Care, where he practices primary care medicine. He previously served as the Clinical Policy Director of the Clinton HIV/AIDS Initiative's Rural Initiative and managed the Academic Consortium of the World Health Organization's Maximizing Positive Synergies initiative.

Shifting Patient Safety into High Gear

NOVEMBER 16, 2012

Eyal Ephrat, MD, is the Founder and CEO of MedCPU. He is an obstetrician and technologist dedicated to improving clinical outcomes and patient safety through advanced, real-time, clinical decision support tools. Before founding MedCPU, Dr. Ephrat founded and led E&C Medical Intelligence (now Perigen) for 13 years. His extensive clinical experience, decision support systems expertise, and work in the areas of artificial intelligence and machine learning technology has led to the development of MedCPU's transformational technology.

Blair Fosburgh, MD, is a staff physician in the Internal Medicine Associates at Massachusetts General Hospital and the medical director of the Ambulatory Risk Management Program (a CRICO-funded grant program) as well as the QA chair for General Medicine, Geriatrics, and Palliative Care at MGH. Dr. Fosburgh is a medical advisor for Primary Care Office Insite (PCP-oriented website) and also serves on the PCOI Advisory Board. Since 2001 Blair has worked with the MGH Laboratory of Computer Sciences in the development of ONCALL, the Internal Medicine Associates' electronic medical record, and is a member of the ONCALL Development Team.

Roxane Gardner, MD, MPH, DSc, is the obstetrics consultant and an associate medical director for CRICO. A board-certified Obstetrician-Gynecologist, Dr. Gardner is an Assistant Professor of Obstetrics, Gynecology and Reproductive Biology at Harvard Medical School and has been a faculty member of the Department of Obstetrics and Gynecology at Brigham and Women's Hospital since 1999. She has also been a faculty member of the Center for Medical Simulation since 2002, where she teaches a human simulation-based team training program for labor and delivery personnel.

Larry Harmon, PhD, is a Psychologist and Director of the PULSE 360 Program at the Physicians Development Program, and a Voluntary Associate Professor in the Miller School of Medicine Department of Psychiatry and Behavioral Sciences at the University of Miami.

Carol Keohane, BSN, RN, is Assistant Vice President for the Academic Medical Center Patient Safety Organization (AMC|PSO). In this role, she is responsible for the strategic planning and operations for the AMC|PSO. Ms. Keohane joined CRICO in 2012 from the Center for Patient Safety Research and Practice at Brigham and Women's Hospital. In addition, she serves as a Nurse Reviewer for the American Congress of Obstetricians and Gynecologists (ACOG) Voluntary Review of Quality Care Program and as a member of ACOG's Committee on Patient Safety and Quality Improvement and Advisory Panel for ACOG's Safety Certification for Outpatient Practice Excellence (SCOPE) initiative.

Patricia (Pat) McCarthy, PA, MHA, is Administrative Director, Medication Education, Safety and Approval Committee at Massachusetts General Hospital: the group responsible for MGH's medication education, safety, and formulary approval processes. A graduate of Duke University's Physician Associate program, with a master's degree in health care administration from Clark University, Ms. McCarthy has worked in inpatient, outpatient, and long-term care settings, and in primary care and surgical arenas. She has been part of MGH's Medication Reconciliation leadership team since 2006 and currently chairs the Partners Medication Reconciliation Committee.

Shifting Patient Safety into High Gear

NOVEMBER 16, 2012

Gregg S. Meyer, MD, MSc, is the Chief Clinical Officer and Executive Vice-President for Population Health at Dartmouth-Hitchcock Medical Center and the Senior Associate Dean for Clinical Affairs and Paul B. Batalden Professor and Chair at the Geisel School of Medicine. Previously, Dr. Meyer served as Senior Vice President for the Edward P. Lawrence Center for Quality and Safety at the Massachusetts General Hospital and Massachusetts General Physicians Organization. A national leader in the area of quality and safety, Dr. Meyer led the multi-faceted efforts of the MGH/MGPO in quality and safety. Dr. Meyer was previously the Director of the Center for Quality Improvement and Patient Safety at the Agency for Healthcare Research and Quality. There, he was responsible for conducting and supporting research on the measurement, improvement, and reporting of health care quality including clinical performance measurement, patient safety issues, and consumer surveys. He took the lead position in articulating the Department of Health and Human Service's quality and safety agenda, and coordinating activity with other federal and non-governmental entities.

Larry A. Nathanson, MD, is an emergency physician at Beth Israel Deaconess Medical Center and is the director of Emergency Medical Informatics for BIDMC's Department of Emergency Medicine. Dr. Nathanson is the architect and programmer of the "ED Dashboard," the ED information system used at BIDMC.

Ann Louise Puopolo, BSN, RN, is the Vice President of Patient Safety at CRICO. Ms. Puopolo received her BSN from Vanderbilt University and practiced as a critical care nurse at Boston's Beth Israel Deaconess Hospital. She has more than 16 years of health services research experience as a director of research at BIDMC, Brigham and Women's Hospital, and the Harvard School of Public Health. Ann Louise is also a member of the Innovations Council of the Harvard Medical School Primary Care Institute.

Jeffrey M. Rothschild, MD, MPH, is an internist, hospitalist, and health services researcher. He is currently a member of the Division of General Medicine and Primary Care at Brigham and Women's Hospital and an Associate Professor of Medicine at Harvard Medical School. Dr. Rothschild has led or participated in a broad range of projects including the early adoption of ambulatory electronic prescribing, and inpatient transfusion practices using decision support, among others.

Assaad Sayah, MD, is the Chief of Emergency Medicine at Cambridge Health Alliance CHA. Dr. Sayah also serves as CHA's Medical Staff President and as an Assistant Professor at Harvard Medical School. Dr. Sayah's research and publications are focused on Emergency Department operation, Emergency Medical Services (EMS), and continuous quality improvement.

Steven (Steve) D. Schwaitzberg, MD, FACS, is the Chief of Surgery of the Cambridge Health Alliance, Associate Professor of Surgery at Harvard Medical School, and is on the editorial boards of several surgical journals. Dr. Schwaitzberg is the recipient of several awards for patient care and a Computerworld laureate award for introducing surgical video editing into post graduate education.

Carrie Tibbles, MD, is emergency physician at the Beth Israel Deaconess Medical Center and an Assistant Professor of Medicine at Harvard Medical School. She also serves as BIDMC's Director of Graduate Medical Education, and as the Emergency Medicine consultant and associate medical director for CRICO. Dr. Tibbles has been awarded an American College of Emergency Physicians National Faculty Award and was named the American College of Emergency Physicians Outstanding Speaker of the Year. Her academic interests involve resident education, women's health in the emergency department, team training, and risk management in the ED.
